Regional Coordination Group for Large Pelagics

What is a RCG?

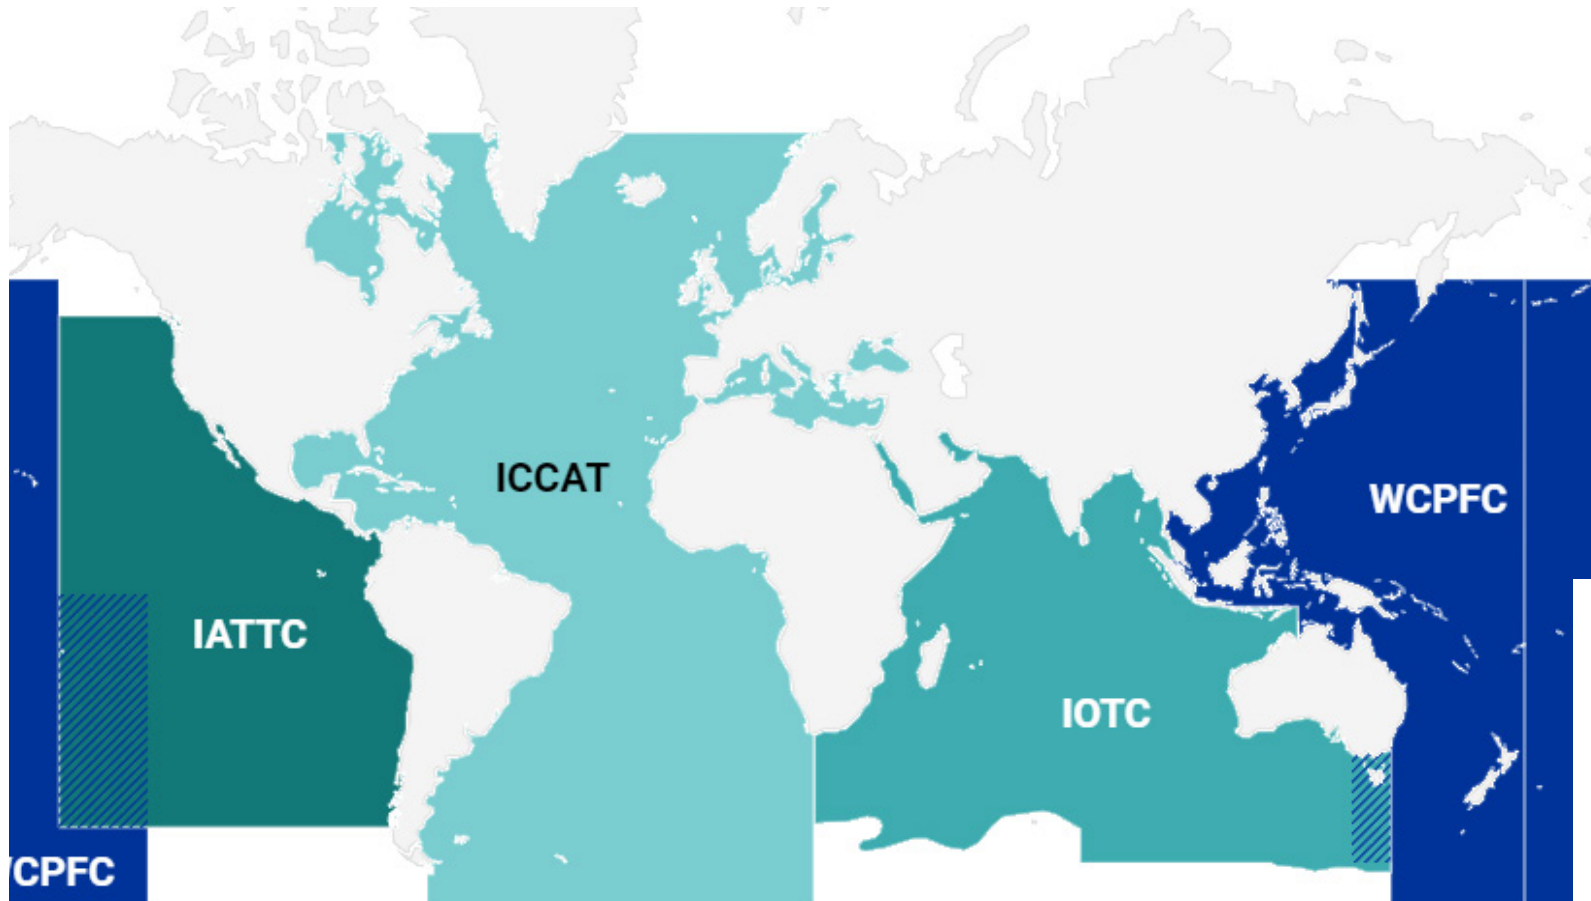

It is the main hub for regional coordination and cooperation within the different sea basins or specific type of fisheries contributing to the EU fisheries Data Collection Framework.

Terms of Reference (ToRs)

- **ToR 1:** Present and discuss the current structure approval of the RCG LP and of each subgroup, make a status check on each subgroup and promote the possibility of the group to express suggestions improvement or modifications in the structure/organisation.
- **ToR 2:** RFMOs feedback and summaries of possible issues, like data transmission failures or potential collaboration in data calls.
- **ToR 3:** Development of a regional database for the RCG LP.
- **ToR 4:** Sampling and regional working plans. Provide a global overview of observer coverage by country and gears.
